SUPERMAX ELECTROMETER

STANDARDIMAGING 

3120 Deming Way, Middleton, WI 53562-1461 USA
www.standardimaging.com

The **SuperMAX Electrometer** makes measurement tasks fast and efficient with features such as:

- Threshold detection for automating sequential charge collections
- Real-time display of dose, dose rate, and temperature/pressure corrected values
- USB flash drive data export capability

The SuperMAX has an extremely wide range [1fA – 500nA] for highly sensitive measurements.
